Annual Index

Volume 23, 1986

First Quarter 1–48 *Third Quarter 89–132*
Second Quarter 49–88 *Fourth Quarter 133–176*

SUBJECT INDEX

Beams
Use of High-strength Steel for Simply Supported Beams—*Wechsler* 72

Bracing
Earthquake-resistant Design of Double-angle Bracings—*Astaneh, Goel and Hanson* 133
Effective Length Factor for the Design of X-bracing Systems—*El-Tayem and Goel* 41
The Disposable Knee-bracing Technique in Steel Frames—*Aristizabal-Ochoa* 49

Columns
A Programmable Solution for Stepped Crane Columns—Moore 55
Moments on Beam-Columns with Flexible Connections in Braced Frames—*Brown* 157
Stepped Columns: A Simplified Design Method—*Castiglioni* 1

Composite Design
Some Design Considerations for Composite-frame Structures—*Griffis* 59

Computer Solutions
Errata—Computer-aided Analysis and Design of Steel Frames (Mehringer, Pierson and Orbison, 3Q85) 35
Least Cost Computer-aided Design of Steel Girders—*Anderson and Chong* 151

Connections
Cyclic Behavior of Large Beam-column Assemblies—*Popov, Amin, Louie and Stephen* 9
Effect of Overspray and Incomplete Masking of Faying Surfaces on the Slip Resistance of Bolted Connections—*Polyzois and Frank* 65
Tension Butt Joints with Bolts and Welds in Combination—*Jarosch and Bowman* 25

Design Aids
A Beam Design for Structural Tubing—*Siddiqui* 173
Discussion: Approximate Stiffness and Bending Strength for Compact-rolled Sections (Lampitt, 2Q85)—*Huang* 116
Design Solutions Utilizing the Staggered-steel Truss System—*Cohen* 97
Limit Analysis and Plastic Design of Grid Systems—*Vukov* 77

Erection
Erecting the Staggered-truss System: A View from the Field—*Hassler* 166

Frames
A Modified Tube Concept for Tall Buildings—*Nair* 126
Plastic Analysis of Pinned-base Haunched Gable Frames—*Parsanejad* 89

Load and Resistance Factor Design
Design Loads for Seated-beam Connections in LRFD—*Garrett and Brockenbrough* 84

Ponding
Ponding of Concrete Deck Floors—*Ruddy* 107

Publication
Writing for Publication: The Engineer's Obligation—*Friedstein* 38

Shapes
The Use of Jumbo Shapes in Non-column Applications—*American Institute of Steel Construction, Inc.* 96

Specifications
Discussions: A General Solution for the Governing Bending Equation (Moore, 1Q85)
Budeshtsky 36
Moore 37

Staggered-truss System
Design Solutions Utilizing the Staggered-steel Truss System—*Cohen* 97
Erecting the Staggered-truss System: A View from the Field—*Hassler* 166

Stresses
Combined Shear and Tension Stresses—*Goel* 124

Supports
Discussion: Bin Supports—A Caution to Designers (Moore, 1Q85)—*Gurfinkel* 70

Tubular Structures
A Beam Design Aid for Structural Tubing—*Siddiqui* 173
Deformations in Cold-bent HSS Members—*Kennedy, Seddeik and Brady* 117

Vibration
Viscoelastic Damping Devices Proving Effective in Tall Buildings—*Caldwell* 148

(continued)

AUTHOR INDEX

American Institute of Steel Construction, Inc.
The Use of Jumbo Shapes in Non-column Applications 96

Amin, Navin R. (see Popov, Egor P.)

Anderson, Katherine E. and Ken P. Chong
Least Cost Computer-aided Design of Steel Girders 151

Aristizabal-Ochoa, J. Dario
The Disposable Knee-bracing Technique in Steel Frames 49

Astaneh, Abolhassan, Subhash C. Goel and Robert D. Hanson
Earthquake-resistant Design of Double-angle Bracings 133

Bowman, M.D. (See Jarosch, K.H.)

Brady, Frank (see Kennedy, John B.)

Brockenbrough, R.L. (see Garrett, J.H., Jr.)

Brown, Jack H.
Moments on Beam-Columns with Flexible Connections in Braced Frames 157

Budeshtsky, Rudolf, J.
Discussion: A General Solution for the Governing Bending Equation (Moore, 1Q85) 36

Caldwell, D.B.
Viscoelastic Damping Devices Proving Effective in Tall Buildings 148

Castiglioni, Carlo A.
Stepped Columns: A Simplified Design Method 1

Chong, Ken P. (see Anderson, Katherine E.)

Cohen, Michael P.
Design Solutions Utilizing the Staggered-steel Truss System 97

El-Tayem, Adel A. and Subhash C. Goel
Effective Length Factor for the Design of X-bracing Systems 41

Frank, K.H. (see Polyzois, D.)

Friedstein, Harriet
Writing for Publication: The Engineer's Obligation 38

Garrett, J.H., Jr. and R.L. Brockenbrough
Design Loads for Seated-beam Connections in LRFD 84

Goel, Subhash C.
Combined Shear and Tension Stresses 124
(Also see Astaneh, Abolhassan)
(Also see El-Tayem, Adel A.)

Griffis, Lawrence G.
Some Design Considerations for Composite-frame Structures 59

Gurfinkel, German
Discussion: Bin Supports—A Caution to Designers (Moore, 1Q85) 70

Hanson, Robert D. (see Astaneh, Abolhassan)

Hassler, Arthur E.
Erecting the Staggered-truss System: A View from the Field 166

Huang, I-Chen
Discussion: Approximate Stiffness and Bending Strength for Compact-rolled Sections (Lampitt, 2Q85) 116

Jarosch, K.H. and M.D. Bowman
Tension Butt Joints with Bolts and Welds in Combination 25

Kennedy, John B., Mokhtar Seddeik and Frank Brady
Deformations in Cold-bent HSS Members 177

Louie, Jason J.C. (see Popov, Egor P.)

Moore, William E., II
A Programmable Solution for Stepped Crane Columns 55
Discussion: A General Solution for the Governing Bending Equation (Moore, 1Q85) 37

Nair, R. Shankar
A Modified Tube Concept for Tall Buildings 126

Parsanejad, S.
Plastic Analysis of Pinned-base Haunched Gable Frames 89

Polyzois, D. and K.H. Frank
Effect of Overspray and Incomplete Masking of Faying Surfaces on the Slip Resistance of Bolted Connections 65

Popov, Egor P., Navin R. Amin, Jason J.C. Louie and Roy M. Stephen
Cyclic Behavior of Large Beam-column Assemblies 9

Ruddy, John L.
Ponding of Concrete Deck Floors 107

Seddeik, Mokhtar (see Kennedy, John B.)

Siddiqui, Faruq M.A.
A Beam Design Aid for Structural Tubing 173

Stephen, Roy M. (see Popov, Egor P.)

Vukov, Ante
Limit Analysis and Plastic Design of Grid Systems 77

Wechsler, Marius B.
Use of High-strength Steel for Simply Supported Beams 72
